Scout BSA Troop 4 DeKalb Township

Committee on the Youth Grant Application Narrative 2021

The purpose of these funds is to purchase a handheld GPS unit, 3 compasses, a handheld weather station, and a case to safely store all of the equipment. This equipment will serve two main purposes. The first is to teach the scouts about navigation using both a compass and an electronic GPS unit. Learning about navigation is not only a requirement for rank advancement in the Scouting program it is also a lifelong skill that everyone should have. We use both a traditional compass along with the electronics so that a failure of the electronics the scout will still be able to navigate where they need to go. The handheld weather station will also be used to teach the scouts about weather and conditions to look for. The second area this will serve the youth is to have this equipment on our campouts and events for use. Using it on campouts and events can help us make sure we know where we are at and to keep an eye on current weather conditions. The implementation plan will be to purchase the equipment when they are in our possession, we then will put it together and place it on our troop trailer. We use programs like this to generate excitement about the scouting program. That excitement will then turn into them participating which can help to defer delinquency in the area. In this participation we do not only teach life skills, but we teach the scouts to live up to the Scout Oath and Law. We also instill leadership lessons and help the scouts to mature over their 7 years in the program.
