If you submitted a request from in the spring and have changed your mind about the tree varieties that interest you, please check the box below. In doing so, your application will be processed using your original submission date, but your preferences will be updated to those indicated on this form. ☐

Order/Request:

Size	Program Requirements	Sample Entry	Variety & Quantity Requested <i>Anticipated tree varieties listed on reverse</i>
Small Tree 15 Gallon Bucket Typical Height: 4-7' Girth > 1"	Weekly watering required during growing season. Mulching required during the years 1-3. Photos submission required.	Speckled Alder (3) Persimmon (1) Elm (1)	

By signing this form, I agree:

- To promptly claim trees from DeKalb Township, on scheduled delivery date.
- To transport or arrange transportation for tree(s) to the installation site.
- To plant tree(s) ONLY at the location(s) specified on this form.
- To care for the tree(s) according the program requirements.
- To accept a reasonable substitution with regard to tree variety if the requested variety is unavailable.
- To provide proof of installation (photos, inspection, etc.)
- To promptly notify DeKalb Township of any changes with regard to this request.
- My request is not guaranteed; order fulfillment is based on: tree supply, grant-directed location priorities, and order of application.
